RE: Report on Gaming Tax Revenue through June 2008

For Council's review, the attached schedules present the gaming tax revenue activity through June 2008 and prior fiscal years.

The city collected \$178.75 million in gaming tax revenue for fiscal year 2007-2008, a 0.57% decrease over the prior fiscal year. The June 2008 collection of \$13.32 million was a 0.06% decrease over June 2007. The budgeted revenue for 2007-2008 for gaming tax collections was \$193.248 million, resulting in a \$14.5 million deficit in this specific revenue account.

The total adjusted gross gaming receipts earned by the casinos in 2007-2008 was \$1.37 billion, which exceeded the 2006-2007 fiscal year by \$51.09 million, or 3.87%. Chart 2A "Monthly Detroit Gaming Receipts" through a twelve-month moving average trend line shows slight growth among the combined casino receipts.

There is not a one-to-one relationship between the adjusted gross receipts and the tax revenue collection increases due to the fact that MGM and Motor City casinos began paying the city 1% less because of the permanent casinos opening on October 3 and November 29, respectively. This reduction to the city is part of state Public Act 306 of 2004, when the legislature amended Public Act 69 of 1997, which was the original casino gaming legislation. P.A. 306 increased the wagering tax by 6% of which 2% went to the City of Detroit. The caveat was that when the permanent casino had been certified by the state gaming board as having operated for 30 consecutive days, 5% of the 6% additional wagering tax would be eliminated, with the 1% allocated to the city where the casino is being operated. Greektown will continue to pay the 6% additional wagering tax – 4% to the state, 2% to the city – until the permanent is open, which is scheduled for October 2008. The amended development agreement, which is separate

from the state law, has all casinos paying an additional 1%, plus another 1% when the casino reaches \$400 million in gross receipts in a calendar year. This change lost the city about \$8 million in the current fiscal year. The Greektown casino is scheduled to open the permanent facility in early 2009 which will then allow this casino as well to reduce the wagering tax payments by 1%.

In November for the second year in a row, gaming tax collections spiked almost by \$9 million over the month of October. This is due to the additional 1% that was added January 2006 through the city's amended development agreement with the casinos that the casinos had to pay the city once they individually reached \$400 million in the calendar year. In the current year MGM did reach \$400 million in mid-October, and finally remitted the additional 1% in November, which was beyond the 10 days stipulated in the development agreement. It does not appear that the amended casino development agreement included any penalty for late remittance. Motor City also reached \$400 million at the very end of October and remitted the funds to the city within the proper timeframe as outlined in the development agreement.

The 2008-2009 budgeted revenue for gaming fees is \$194.78 million, a 0.8% increase over the 2007-2008 budget of \$193.25 million.
